LLD: Design Payment gateway (Concept && Coding)

What is Payment Gateway:

In short, Payment Gateway act as a mediator between User and Financial Institution and helps to transfer money.

Peer to Peer

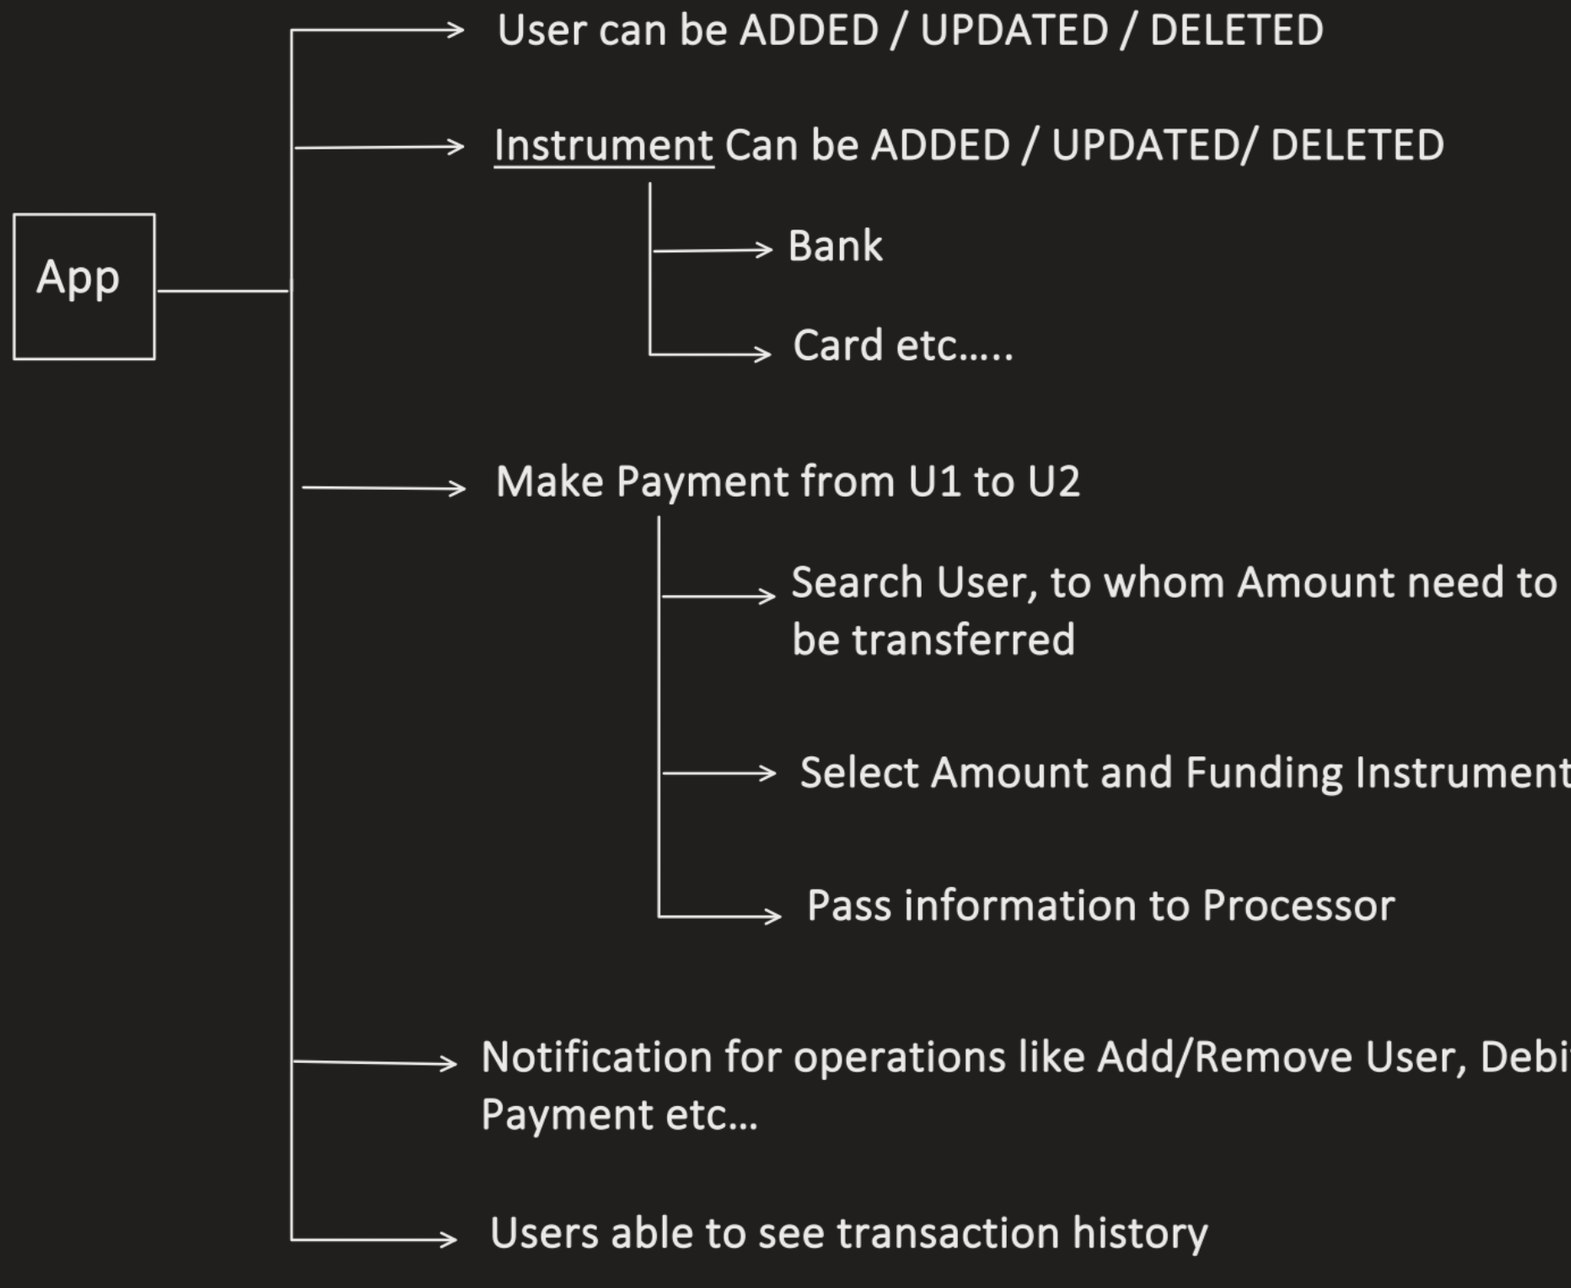

Lets focus on this

Peer to Merchant

↳ Refund

↳ Multi Tenancy

1. Clarify the requirements / Understand the flow

2. MAIN entity involved in the above flow

1. User
2. Instrument
    i. Bank,
    ii. Card etc...
3. Transaction
4. Transaction History
5. Notification
6. Processor
